In the opening game with the champion Red Sox, for instance, they missed tying up the game in the eighth innng by a discouraging freak of luck. But it didn't stop them. They came right back in the ninth and did it. The fact that they finally lost out in the tenth had no ill effect on the shivering fans, who managed to keep warm at times through the sheer exertion of enthusiastic rooting. Games like that bring the boys right back the next day.

Nothing Mysterious at All About the "Masked Marvel," the Wrestler They Are Trying to Make Popular Again.

Coppright, 1916, he The Press Publishing Co. NEW attempt is being made to A make a popular "mystery" of a wrestler called the "Masked Marvel" and identified as Mort Henderson, a clever Western mat artist

derson, a clever Western mat artist who lacked the bulk necessary to make him actually first class. Two of the officials told me there were no less than three men in the so-called Mournament' held at the Manhaitan Opera House who could throw him at any time. They were Aberg, Zby-szke and Lewis.

The "tournament" hippodromed its way along for weeks, the "Marvel" being a star attraction. His presence was explained rather romantically. According to the story he appeared like some old knight entering the lists with visor down and issuing his feftance to all comers. He was said to have walked into the manager's office one night, masked. Thinking to was a robber the manager leaped to close the safe. The masked man then explained that he merely wanted a chance to wrestle the best men in the tournament, and go unrewarded if he failed to beat them. He appeared in disguise and always left in a closed car, for a supposedly unknown destination.

a closed car, for a supposedly un-known destination.

The mere facts were that the "Mar-vel" was mysterious only to the specators, and was paid a weekly salary for his work.
I went to the Manhattan Opera

House affair one night—I believe it was the last night in December. The "Marvel" was wrestling Zbyszko. Aberg, programmed for the next bout, was standing around in his wrestling tights as if regly to go on. I wanted to see Aberg wrestle, but about midnight grew tired of waiting for the and of the "Marvel"-Zbyszko match, which went along with all sorts of which went along with all sorts of ploturesque complications. I left my seat on the stage and started for the exit. One of the officials walked along with me.

"I'd like to stay and see Aberg." I mid, "but it's getting too late."

"Come on outside," said the official.

and the officials walked along with me.

"To like to stay and see Aberg." I mid. "but it's getting too late."

"Come on outside." said the official. When we had left the stage he stopped.

"Aberg isn't going on to-night," he said. "Aberg son't wrestle to see Aberg."

"The the's supposed to go on," I said. "Sherg won't wrestle to night. Zbyazko and the Marvel are soing to wrestle until 1 o'clock without a fail. To-morrow might Aberg is going to throw the Marvel." Then they're going to have a return match and wrestle to a farw. You'll have a shance to see Aberg."

The prediction came out so exactly as work on the part of the official. But he was wrong in one thing. I didn't see Aberg. I didn't care to see any more wrestling "contests" in New York.

though I have never written a humorous paragraph describing anything English without receiving some solemn written protest afterward, I ventured to describe the scene like this:

"Bir Francis," gasped the messenger, "the Spanish Armada has arrived and is standing in to attack us."

"Don't bother me," replied the Admiral petulantly. "Don't you see I am about to slam one down the centre of the alicy?"

The Boston Red Sox evidently have not found Shorten an acceptespecially with the bat. Bill Car-rigan surprised everybody yesterday by using Hendrikson as the third outfielder, and, in confirmation of his choice, the new man aided materially in the defeat of the Yanks. He contributed three hits, one of which was a twobagger. Hendrikson, by the way, is the young man who broke up one of the World's Series games against the Giants in 1912 when called upon as a pinch hitter. Until this year he has never been considered a regular.
